- Jason McBride- Down & Dirty snow retainer \$250- Board approved.
- Next year the Board will establish a petty cash fund to pay handymen for minor repair work. Most do not send bills but expect to be paid when done with job. (Ex. Fence hit by tree, partition slats blown out by wind, locksmith for broken lock on package mailbox 1P). Receipts are as always required to submit to Board. This will eliminate Board using their personal money.
- Landscaping
  - John, Natural Elements will reach out to sprinkler company he works with in spring as there are areas suspicious for leaks throughout the community.
  - Natural Elements will take care of weeds along Boulevard. They will assist in filling in the over trimmed lamp pole areas as well as reseed areas in the spring due to over trimming.
